

CONGRESSMAN ED ROYCE VISITS GBS LINENS, ANAHEIM, CALIFORNIA FACILITY

On August 28th, GBS Linens hosted U.S. Congressman Ed Royce (Republican) at its Anaheim, California facility.

Representative Ed Royce has served Southern California's 39th District since 1993 and is currently the Chairman of the House Foreign Affairs Committee.

Representative Ed Royce was joined by past Anaheim City Council Member, Harry Sidhu.

Both Representative Royce and Mr. Sidhu enjoyed learning about GBS Linens and its commitment to manufacturing within the United States. In fact, GBS Linens continues to manufacture table linens and chair covers at its manufacturing plants in California, Texas, and Florida. Furthermore, GBS Linens sources more than a third of its fabric from U.S.-based textile mills.

They were also impressed with the company's strong relationships with its employees and the community. Today, GBS Linens supports numerous local organizations including the Anaheim Health Fair and the Center for Family Business at Cal State Fullerton.
